

# We want to hear from you!

**Are you the parent of a child age 14-21?  
Does your child have emotional or  
behavioral health needs?**

If you answered "yes" to both questions, you are an ideal candidate for our focus groups! Nearly HALF of students diagnosed with a mental health disability DON'T graduate from high school. We want to better understand the experiences parents have with meeting their child's needs, both in school and in the community. Your input will help us to develop workshops and programs that better address the needs of parents and transition-age youth.
